The Fifteenth Sale.

Almost any collector of coins, be he connoisseur or novice, may find within these pages, items new or welcome to his collection. In Americana the very rare and choice dollars of 1794, 1836 ("Gobrecht in the field",) 1838, 1839, 1851, 1852 and 1858, embrace all of the great rarities, excepting 1804. Added to this great list are two very choice half dollars of 1796 and 1797. There is an excessively rare half eagle dated 1797, struck over 1795, as well as a $3 gold piece of the Dahlonega mint.

In United States cents, the "Chain Ameri" of 1793, practically uncirculated, and sharp, and the "liberty cap" 1796, entirely uncirculated, are almost unequalled.

The very rare half cents of 1793, 1848, 1849, small date, and 1852, all in very choice condition, are exceptional. Choice lots of Colonial and Continental currency, United States Fractional currency, and Confederate issues, are included.

Collectors of foreign gold will find here a splended lot of about one hundred and fifty specimens in superb condition.

Antiquarians and collectors of ancient art objects, such as scarabs, glass, necklaces, weapons, pottery, Babylonian tablets and seals, will be interested in the collections of Prof. Emery and a private collector.

For $1.25 I will send you a catalogue priced in ink, after the sale. I find this charge must be made in order to prevent actual loss.

PLEASE REMEMBER THAT BOTH SESSIONS OF THIS SALE WILL BE HELD IN THE AFTERNOON.

Numismatics and collecting are at present experiencing an unprecedented boom, and the prominence these subjects are receiving in great newspapers like the Sun, Tribune and Times of this city, and the Boston Transcript, must be exceedingly gratifying to all students of history and art.

ANCIENT ROMAN, CAROLINGER AND SIEGBURGER POTTERY.

American collectors are here given a rare opportunity to add to their collections some rare and genuine pieces of ancient Roman, Carolinger and Siegburger pottery. The finds were effected in and about Cologne, largely along the mortuary limits of Lindenhal and the Luxemburger strasse. Objects of Roman art and of later periods come to light from time to time during excavation and building work in Cologne and suburbs. Professor Emory, their owner, got these objects in Cologne. They have formed part of the justly celebrated cabinets of Mertens and Krewaldt, of Cologne. These gentlement acquired all they could lay their hands on of the material excavated in the Pheinprovinz, especially about Old Cologne. Excavations in the Norbertstrasse, Spiesenhof, Luxemburgstrasse, in Lindenthal, brought thousands of ob-

jects to light. With the exception of the few Carolinger and Siegburger and one Greek piece, they belong to the second to fourth century A. D., the time of the Roman occupation of the Rhine. The Carolinger and Siegburger were made by the Germans, conquered by the Romans.
